

REMARKS

In respond to the Official Office Action of March 24, 2006, Applicant has elected as a single species the compound of "sodium hydrochlorite".

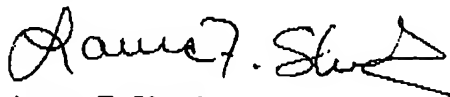

As a listing of claims readable thereon, claims 10-12 have been elected.

With regard to the election of a specific microbial infection, Applicant has elected treatment of a cold virus.

In view of the above, a formal action on the merits is hereby earnestly solicited.

Respectfully submitted
